

## How to: Access journals easily with Browzine, Libkey Nomad and Google Scholar

### Libkey Nomad

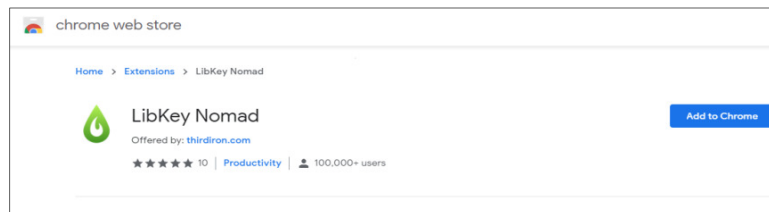

Libkey Nomad is a browser extension that can be added to most internet browsers apart from Internet Explorer. It will alert you when you are searching for journal articles if you can download the fulltext through the library subscriptions. This can be done on Chrome on any trust computer. If you use more than one computer it will need to be done on each computer you use.

Go to <https://thirdiron.com/downloadnomad/>

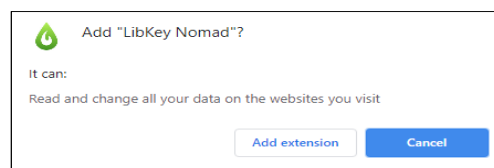

Scroll down and choose Google Chrome

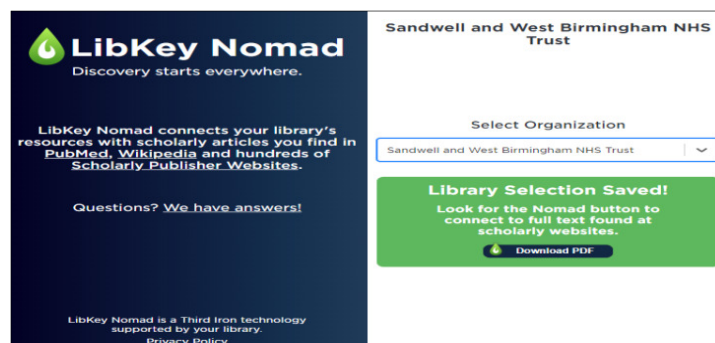

Click on 'Add to Chrome'

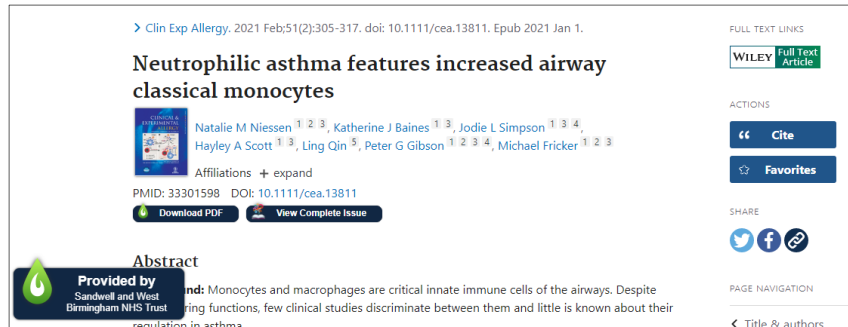

Click on 'Add extension'

Once Libkey Nomad has been added to your browser, search for Sandwell and West Birmingham NHS Trust under 'Select Organization'.

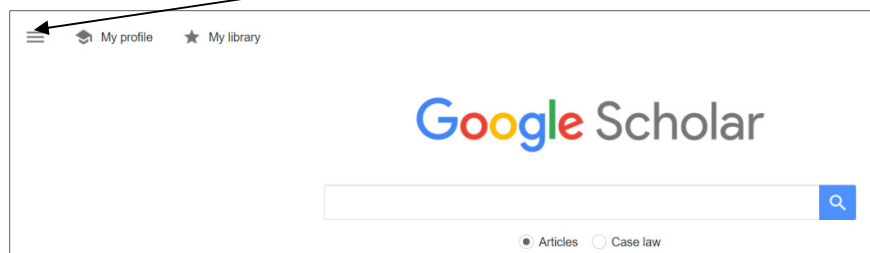

When searching Pubmed/journal websites the extension will check if we have a subscription and alert you in the bottom left hand corner. Look for the  or  buttons, put in your SWB OpenAthens username and password and access the fulltext of the article. The  button will open an email message and input the article information and the library email address to enable you to ask us to find this for you (you will need to be registered with the library for this service).

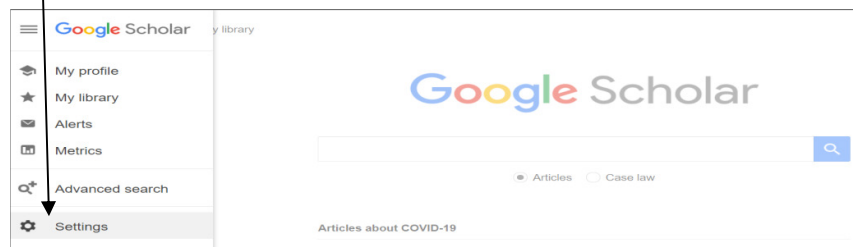

## Google Scholar

If you are using a trust device you can use Google Scholar to give you links to fulltext articles.

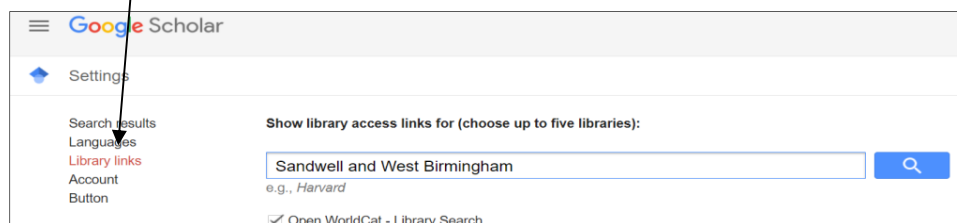

Go to <https://scholar.google.com/> and click on the three horizontal lines in the top left hand corner

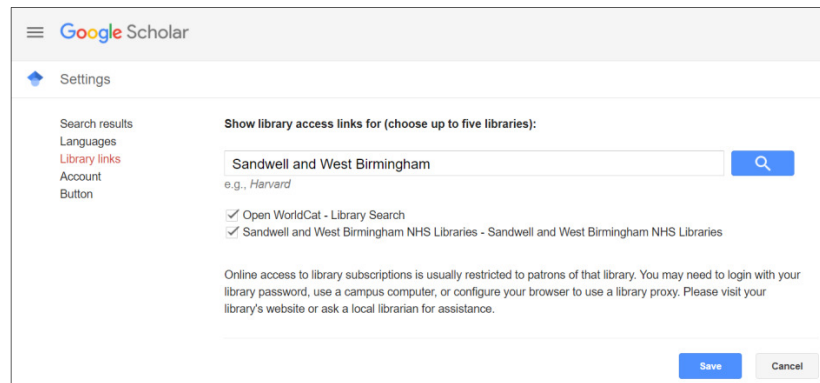

Click on 'Settings'

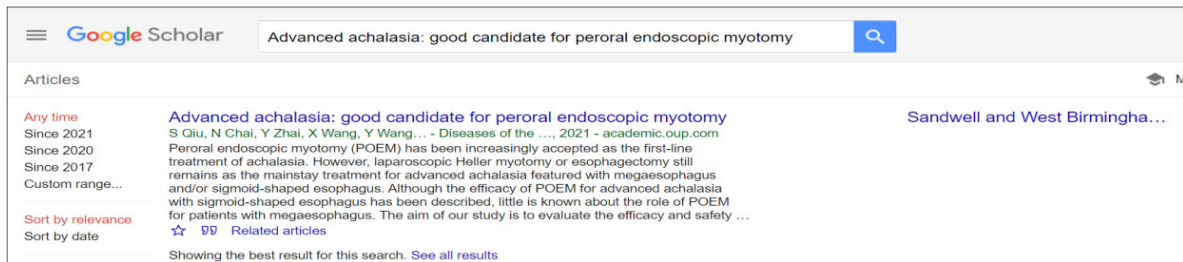

Click on 'Library Links' and search for Sandwell and West Birmingham

Click on the tick box next to Sandwell and West Birmingham NHS Libraries and select 'Save'.

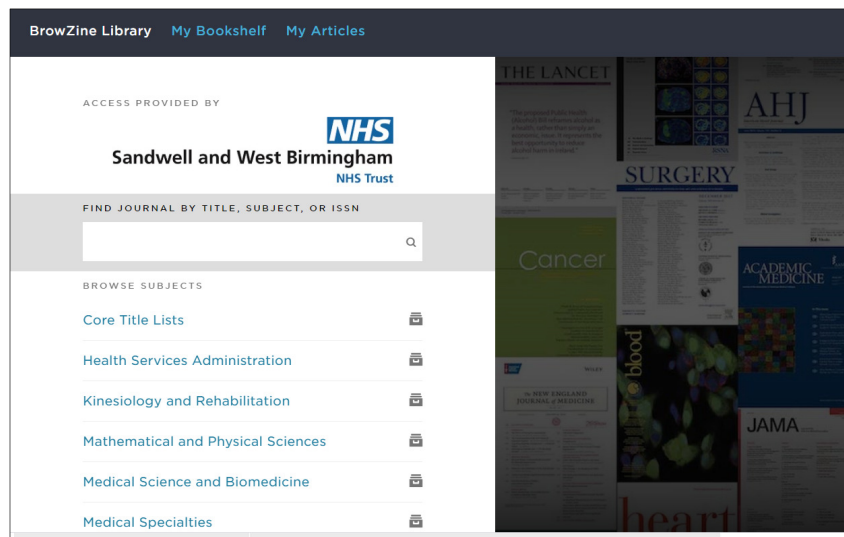

If we have a subscription to an article a link will appear on the right hand side next to the article showing Sandwell and West Birmingham NHS Libraries.

The link will prompt you to login with your SWB OpenAthens account (if you haven't logged in already) or may give you an option to download a PDF or a link to the journal article.

## BrowZine

If you want to see what journals we have for your subject interests, save articles or create bookshelves for your favourite journals, go to <https://browzine.com/libraries/2231/subjects> or use the ejournals link on both our Connect pages or our website [swbhlbrary.wordpress.com](http://swbhlbrary.wordpress.com).

You can search by journal title or just browse the subject areas. Please see our leaflet on BrowZine for more information.

### **Checking by DOI or Pubmed ID (PMID)**

If you have a reading or reference list that includes the DOI or PMID you can enter this information into the search box under the journal article request form on Connect or our website [swbhllibrary.wordpress.com](http://swbhllibrary.wordpress.com).

Journal Article Request Form

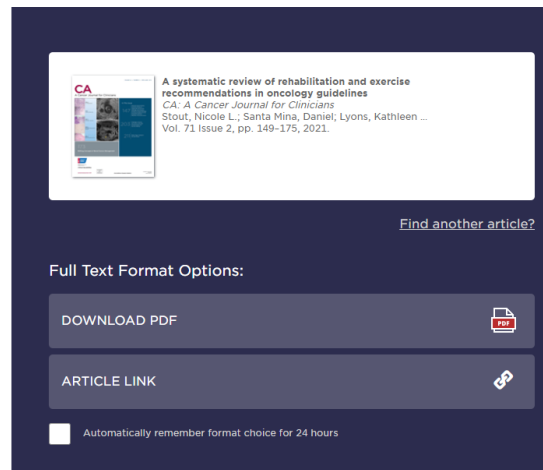

Looking for a particular journal article? The library can find the full article either from our own collection or source it from another library. We will try to find the articles free of charge but if we can only get them from the British Library there will be a charge of £8 per article. We will contact you before any charges are applied.

**🔥 Lookup a fulltext journal article by DOI or PMID**

DOI/PMID Lookup

Find Article

It will show you if we have direct access to the article and you can download the pdf directly from the screen (you may need to enter your SWB OpenAthens username and password).

**CA** A systematic review of rehabilitation and exercise recommendations in oncology guidelines  
CA: A Cancer Journal for Clinicians  
Stout, Nicole L.; Santa Mina, Daniel; Lyons, Kathleen ...  
Vol. 71 Issue 2, pp. 149-175, 2021.
