

Mental Health 2

As the days shorten and the UK readies itself for the onset of the winter, taking the time and effort to adequately support the individual's mental health - patients and healthcare professionals alike - can prove a difficult task. Seasonal challenges to the healthcare system and the ongoing COVID-19 pandemic will invariably be pressing issues for healthcare professionals to tackle in the coming months. We have provided a list of relevant articles from MA Healthcare journals

dealing with this area, thereby providing your staff with research, information and tips that will support both their work and the quality of care for their patients.
